Custom CENTUM VP OPERATION,ENGINEERING AND MAINTENANCE

his course is designed to give participants the fundamental knowledge on the operation and functions of the Centum VP system. This course has included shorten syllabus on performing generation of Centum VP regulatory control functions, sequence control functions and Human Interface Station.

The last day of the course covers the maintenance of FFCS

Course Code CUSTVPOPEGMN
Duration 4 days
Max Class Size 1

Prerequisite None

Who should attend this course?

For engineers and technicians who need to perform operation and engineering work on CENTUM VP system

Day 1

Centum VP system overview
Centum VP hardware description
Window panel operation
- Browser Bar
- System Message Banner
- Trend View

Window panel operation, part 2
- Tuning View of Function Block
- Process / Historical report
- System status display
- HIS Setup

Day 2

Project creation and attribute utility
FCS configuration
I/O module configuration
Software switches configuration
Message configuration
Control drawing builder

Day 3

Regulatory control function
Sequence control function
HIS configuration
Graphic Builder

Custom CENTUM VP OPERATION,ENGINEERING AND MAINTENANCE

Course Code CUSTVPOPEGMN
Duration 4 days
Max Class Size 1

Prerequisite None

Day 4

Hardware setup
Hardware/software requirement
Installation of Centum VP
Backup procedure
Troubleshooting
