

Process Measurement and Control Essentials - Online

The course is designed to provide participants with the basic knowledge of automatic process measurement and control.

Course Code PMCE-ONL

Duration 2 days

Max Class Size 20

Prerequisite None

Who should attend this course?

For operators, technicians and new engineers who want to learn the principles of process measurement and control.

Day 1

Pressure measurement : terminology, working principles of various pressure sensing devices
Level measurement : working principles of different level sensing devices
Temperature measurement : terminology, working principles of temperature detectors
Flow measurement : terminology and working principles of flow measuring devices

Day 2

Pressure measurement : terminology, working principles of various pressure sensing devices
Level measurement : working principles of different level sensing devices
Temperature measurement : terminology, working principles of temperature detectors
Flow measurement : terminology and working principles of flow measuring devices
