

Centum VP Engineering - Online

This course enables participants to learn to perform generation of Centum VP regulatory control functions, sequence control functions and Human Interface Station.

Course Code VPEG-ONL

Duration 5 days

Max Class Size 8

Prerequisite Participants should have attended Centum VP Operation course

Who should attend this course?

For engineers involved in software generation or modification on the Centum VP system.

Day 1

Centum VP System specification/overview
Centum VP hardware description
Project creation and attribute utility
Project common definition
Laboratory work: Project creation and project common definition

Day 2

FCS configuration
I/O module configuration
Software switches configuration
Message configuration
Control drawing builder
Laboratory work : FCS configuration, I/O module definition, Regulatory control generation

Day 3

Regulatory control function
Sequence control function
Laboratory work: Sequence control generation, logic control generation

Centum VP Engineering - Online

Course Code VPEG-ONL

Duration 5 days

Max Class Size 8

Prerequisite Participants should have attended Centum VP Operation course

Day 4

HIS configuration
Windows configuration
Laboratory work : HIS and Windows configuration

Day 5

Graphics builder
Configurator of CAMS for HIS (Basic) - Optional
Laboratory work : Graphics generation CAMS for HIS (optional)
