

CENTUM VP FOR PRODUCTION EXCELLENCE

This course is designed to give participants the fundamental knowledge on the operation and functions of the Centum VP system. It also provides an overall understanding of the configuration and engineering functions.

Course Code VPPE

Duration 5 days

Max Class Size 12

Prerequisite Participants should preferably have some basic knowledge on process measurement and control.

Who should attend this course?

For operators, plant operation specialists and engineers who need to operate the Centum VP system and want to gain a general understanding of the engineering features of the system for future improvements.

Day 1

Centum VP system overview
Centum VP hardware description
Window panel operation, part 1
- Browser Bar
- System Message Banner
Consolidated Alarm Management Software for HIS (optional)
Laboratory work: Operation exercises on standard panels

Day 2

Window panel operation, part 2
- Trend View
- Regulatory Control Function
- Tuning View of Function Block
- Sequential Control Function
Laboratory work : Operation exercises on feedback and sequence control

Day 3

Window panel operation, part 3
- Process / Historical report
- System status display
- HIS Setup
Laboratory work : Operation exercises on report, HIS setup

CENTUM VP FOR PRODUCTION EXCELLENCE

Course Code VPPE

Duration 5 days

Max Class Size 12

Prerequisite Participants should preferably have some basic knowledge on process measurement and control.

Day 4

Project creation and attribute utility
Control drawing builder
Laboratory work : FCS configuration, I/O module definition, Regulatory control generation

Day 5

Regulatory control function
Sequence control function
Laboratory work: Sequence control generation, Logic control generation
Graphics builder
